CITIZEN DEMAND FOR CRIMINAL INVESTIGATION

DATE:
TO: Office of Attorney General Dave Sunday
16th Floor, Strawberry Square
Harrisburg, PA 17120

FROM: The Concerned Citizens and Residents of Potter County, Pennsylvania
SUBJECT: Formal Demand for Criminal Public Integrity Investigation into Potter County District Attorney Andy Joseph Watson (Atty. Reg. No. 80068)

Dear Attorney General Dave Sunday,

We, the undersigned citizens, taxpayers, and residents of Potter County, write to your office to formally demand an immediate and thorough criminal investigation into Potter County District Attorney Andy Joseph Watson. The **Office of Disciplinary Counsel (ODC) has compiled overwhelming evidence under pending case 49 DB 2026 showing a 12-year systematic abuse of power. This case is officially headed to a formal, public disciplinary trial scheduled for December 8, 9, and 10, 2026.** While this upcoming administrative trial seeks to strip him of his law license, the documented facts that will be presented there reveal that District Attorney Watson's actions crossed the line from professional misconduct into direct, intentional criminal violations.

As the chief law enforcement officer of the Commonwealth, we demand that your office monitor these December proceedings, review the digital forensic mainframes, and hold this public official criminally

accountable under the **Pennsylvania Crimes Code (18 Pa. C.S.)** for the following distinct violations:

1. **Tampering with Public Records or Information (18 Pa. C.S. § 4911)**
   ****The Violation:** Filing false or unauthorized documents within a public office or court system.
   ****The Evidence:** District Attorney Watson repeatedly filed unauthorized, pre-complaint third-party subpoenas under "miscellaneous" docket numbers without an active criminal case, a grand jury, or a signed judicial warrant. Furthermore, in **Commonwealth vs. Foulkrod**, he filed a 69-count criminal information utilizing evidence he explicitly promised the President Judge he would not use. His signature on these felony filings, executed after a direct judicial mandate to cease the practice, proves criminal intent and willful falsification of the court record.

2. **Forgery and Simulating Court Authority (18 Pa. C.S. § 4101)**
   ****The Violation:** Executing or issuing documents that falsely purport to be the authorized act of the court or a judicial authority.
   ****The Evidence:** Watson's office manufactured and issued boilerplate subpoenas commanding third-party corporations to hand over private citizen data under the explicit threat that they were "Ordered by the Court." These documents included fabricated Non-Disclosure Agreements (NDAs) and gag orders forcing businesses to remain silent. Because no judge ever reviewed or signed these orders, these documents constitute a criminal simulation of judicial authority designed to

deceive corporations and strip citizens of their constitutional protections.

3. **Official Oppression (18 Pa. C.S. § 5301)**
   ****The Violation:** A public official acting in an official capacity who, knowing his choice is illegal, intentionally subjects another to an unlawful search, seizure, or legal infringement.
   ****The Evidence:** The scale of this operation destroys any defense of "administrative oversight" or "clerical error." For over a decade, hundreds of citizens had their private banking, communication, and personal records quietly vacuumed up and placed into miscellaneous drawers. Running a covert, unauthorized surveillance web for 12 consecutive years proves a calculated, intentional pattern of behavior to deny citizens due process under the color of law.

4. **Unsworn Falsification to Authorities (18 Pa. C.S. § 4904)**
   ****The Violation:** Making intentional misleading statements to a judge or public servant.
   ****The Evidence:** The ODC petition outlines that Watson made false representations to the President Judge of Potter County regarding his office's reliance on and handling of the improperly obtained gun-safe subpoena evidence.

THE PRINCIPLE OF EQUAL JUSTICE UNDER LAW

As everyday citizens, we live under a strict reality: **If any regular citizen of Potter County committed even a small fraction of these acts—if a private resident fabricated a legal document, forged court authority,**

silenced a witness with a fake NDA, or lied to a judge– they would be immediately arrested, indicted, and facing significant prison time.

A law degree and a public title must not serve as a shield against a criminal liability. When the individual trusted to enforce the law is the very person systematically breaking it, the damage to our community's trust in the justice system is catastrophic. The creation of an emergency "Subpoena Inquiry Process" by our Clerk of Courts is proof that our entire community has been victimized. We look to your leadership, Attorney General Sunday, to restore integrity to Potter County.

We demand a full criminal grand jury investigation into Andy Joseph Watson.

Respectfully Submitted,

_____
